GCSE Mathematics practice paper

Answer all questions. Show your working.

Question 1 (2 marks)

Simplify $x^5 \times x^3$.

x^8

Question 2 (3 marks)

Solve the simultaneous equations $2x + y = 11$ and $x - y = 1$.

x = 4, y = 2

AI-estimated feedback - not an official mark

Question 3 (2 marks)

Work out $\frac{3}{4} + \frac{1}{8}$. Give your answer as a fraction.

7/8

Question 4 (3 marks)

A coat costs £80. In a sale the price is reduced by 15%. Work out the sale price.

£86

AI-estimated feedback - not an official mark

Question 5 (2 marks)

Write 0.000 52 in standard form.

5.2 x 10^-4

AI-estimated feedback - not an official mark

Feedback on your paper

These marks are AI estimates, not official marks. No mark scheme was supplied, so the AI worked out its own answers and checked them by calculation. A question the AI could not read or check is marked "needs checking", not wrong.

3 correct, 0 partly right, 2 not right, 0 needing checking, 0 with no answer found.

AI-estimated marks on the questions the AI could judge: 6 out of 12.

Question 1: Correct - AI-estimated 2 of 2 marks

You wrote:

x^8

Checked answer:

x^8

Your answer matches the checked answer.

Question 2: Not right - AI-estimated 0 of 3 marks

You wrote:

$x = 4, y = 2$

Checked answer:

$x = 4, y = 3$

I could not see any working for this one, so I cannot tell where it went wrong. Your answer is different from the checked answer: work through the question again, writing down each step.

Question 3: Correct - AI-estimated 2 of 2 marks

You wrote:

$7/8$

Checked answer:

$\frac{7}{8}$

Your answer matches the checked answer.

Question 4: Not right - AI-estimated 0 of 3 marks

You wrote:

$£86$

Checked answer:

$£68$

I could not see any working for this one, so I cannot tell where it went wrong. Your answer is different from the checked answer: work through the question again, writing down each step.

Question 5: Correct - AI-estimated 2 of 2 marks

You wrote:

$5.2x10^-4$

Checked answer:

5.2×10^{-4}

Your answer matches the checked answer.
